nuinsco RESOURCES LIMITED

Factsheet | November 2026

CSE: NWI | FRA: NJX

Strategic Resources for Canada's Future

THREE ASSETS | THREE PATHS TO VALUE CREATION

Prairie Lake — Scale
Large Canadian phosphate + rare earth element (REE) resource, plus niobium. Established infrastructure. Advancing metallurgy.

Paradise Lake — Future Discovery
High-grade gold exploration opportunity in Central Newfoundland with multiple targets being advanced.

El Sid — Potential Cash Flow
Gold-bearing dumps and tailings at surface, offering a lower-capital route toward revenue.

Experienced Management:
~15% Insider Ownership
Multiple 2026–27 Catalysts

Capital Structure

As of November 1, 2026

Issued and Outstanding Listed Shares	867.6M
Warrants	2.5M
Stock Options	19.4M
Fully Diluted	889.5M
Insider Ownership	~15%

Prairie Lake Project

ONTARIO

~887 Mt Total MRE (2022)[1]
15.6 Mt Indicated at 3.71% P_2O_5
871.8 Mt Inferred at 3.39% P_2O_5

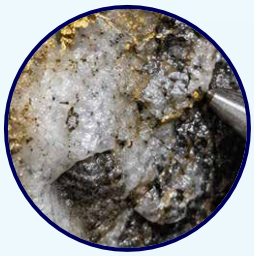

~57 Mt Subset MRE (2026)[2]
3.54 Mt Indicated at 4.59% P_2O_5
53.45 Mt Inferred at 5.11% P_2O_5

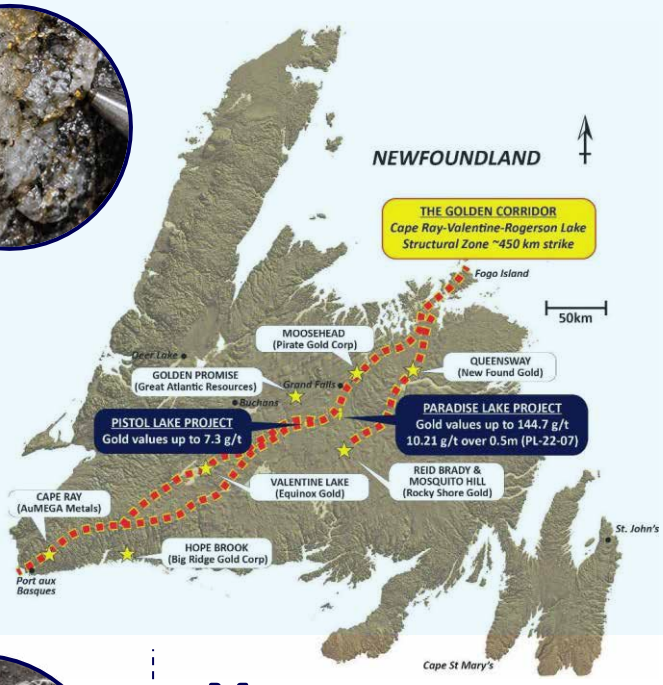

1. See the NI 43-101 technical report on SEDAR+ and nuinsco.ca for the complete MRE.; 2. See February 26, 2026 press release.

Critical Mineral Opportunity	100%-owned, royalty-free, phosphate, REEs, and niobium resource.
100% Owned	Favourable metallurgy, PEA planned.
Infrastructure Advantage	Favourable metallurgy, PEA planned.

Paradise Lake Project

NEWFOUNDLAND

Discovery Potential | Drill Ready

3,300 ha | Paradise Lake Project in Central Newfoundland.

132 claims | Two property blocks (Paradise & Pistol).

~10 km | Prospective strike length.

Strategically located | Prolific gold district near Equinox Gold's Valentine Lake Mine and Pirate Gold's Moosehead Project.

El Sid Project

EGYPT

Paul Jones, B.Sc., P.Geol.

Non-Dilutive Opportunity

Eastern Desert, Egypt | ~90 km west of the the Red Sea coast along paved road connecting the Red Sea coast and Nile valley.

Production Opportunity | Processing of dumps and tailings from historic El Sid Mine (1940-50s).

Non-Dilutive | Potential for partner-funded operation to provide NWI with cash flow to fund exploration.

Management & Board

Paul L. Jones, B.Sc., P.Geol.
